## EXPERIENCE

MAY, 2018 - PRESENT

### **Guidea** - Principal UX Designer

- Led UX design, research, and product direction on strategic engagements
- Facilitated in-person and remote workshops taking projects from initial discovery through final handoff
- Clients include IBM, Novo Nordisk, Secureworks, and Mastercard

DECEMBER, 2015 - MAY, 2018

### **Northrop Grumman** - Systems Software Analyst

- Provided conceptual designs for multiple successful capture efforts and proposals
- Led the strategic UX redesign of the corporate employee resource hub, increasing employee awareness and utilization of available resources
- Reduced development costs for external partners through usability analysis and research
- Mentored UX practitioners in multiple divisions

JUNE, 2015 - NOVEMBER, 2015

### **Chimaera Corporation** - User Experience Designer

- Determined research focus and product direction to meet business goals
- Defined workflows, features, and visual elements for testing and implementation
- Created testing materials and facilitated user events to drive product decisions

SEPTEMBER, 2013 - JUNE, 2015

### **Northrop Grumman** - User Experience Designer

- Created visual and interaction design concepts for programs in complex domains
- Provided UX direction for IR&D, successful capture efforts, and fielded products
- Established a new corporate partnership with the Center Centre/UIE, resulting in training opportunities for UX practitioners within the company
